# About BRV

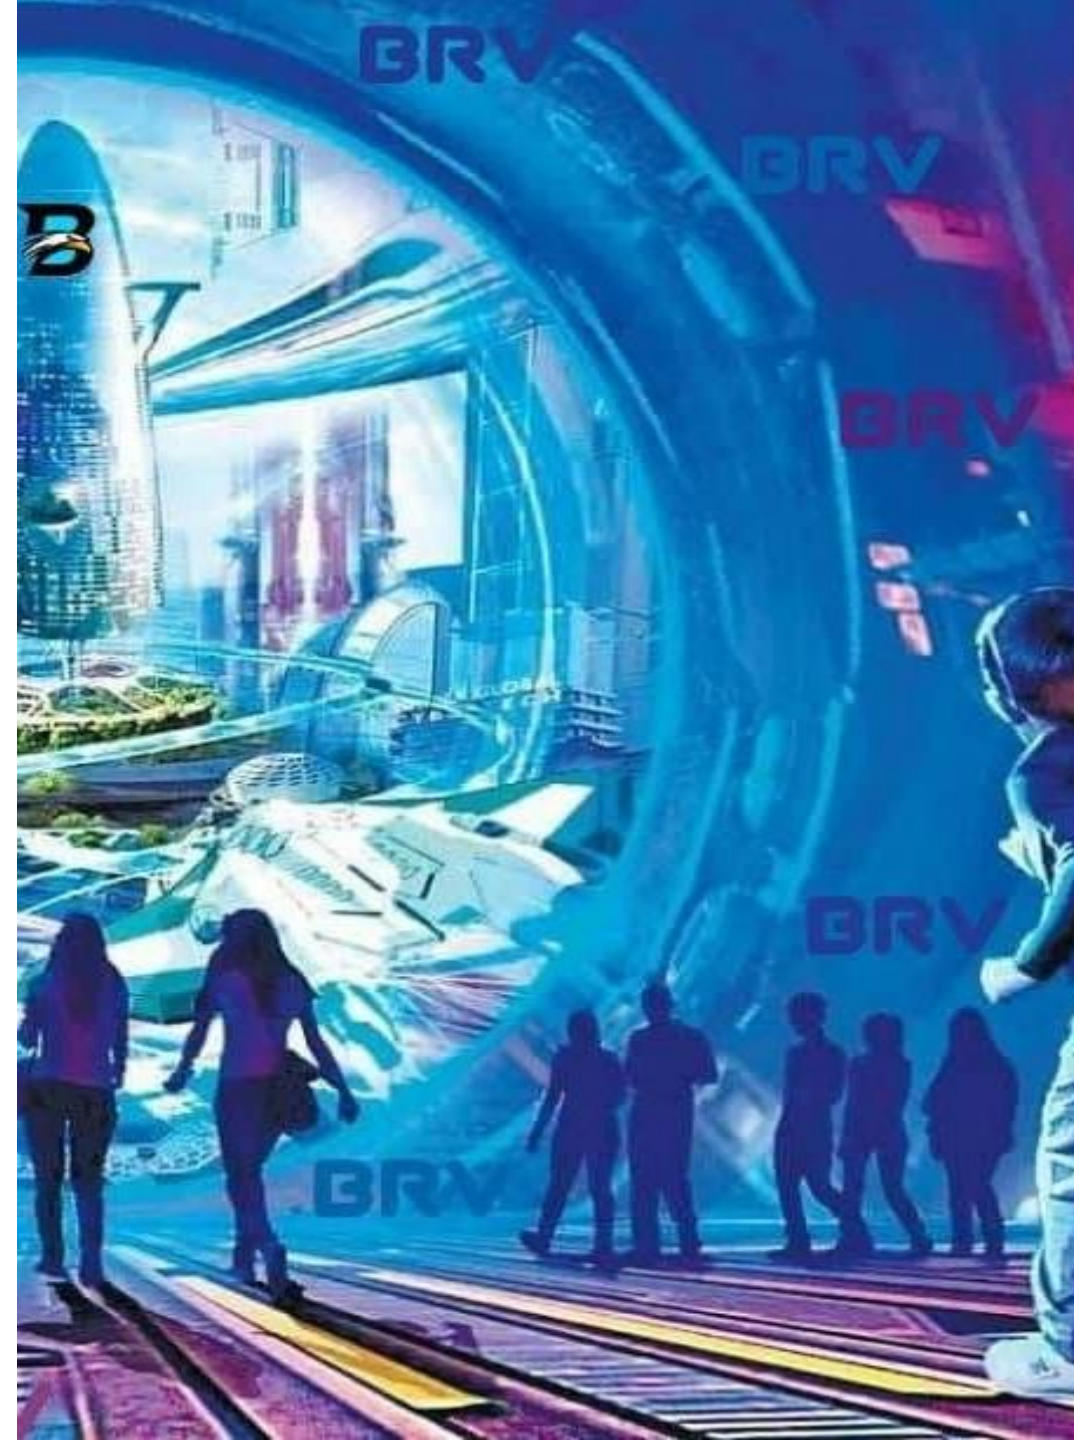

It is better to start with a few questions.

What is Metaverse? What is Brave boy's purpose? And what does it have to do with the Metaverse environment?

Metaverse can be defined as a shared virtual space that results from a combination of augmented reality and virtual reality and digital currencies, enabling users to interact virtually with each other. Interact with other humans or digital characters in a virtual world to form Metaverse.

In simpler terms, Metaverse is a virtual and advanced environment that makes human needs to live in any place and maybe even any time by simulating that environment.

Now, in order to access the Metaverse environment and spend time there, you need a series of facilities that you have to provide in the same environment, and these sales have been started for some time. From your most basic to the most advanced needs in that environment with the lowest cost and introducing the best to be by your side.

# ●● BraveBoy Mission

Brave Boy Token

## Description About Mission

**Brave boy's goal is to create a comprehensive and complete environment for all sales.**

**Brave boy is a marketplace where a lot of people are going to buy and sell or both every day. "Buy and sell anything you can buy or sell."**

**The beauty of Brave boy's work lies in the power of his market. In this market, everything is as valuable as people are willing to pay for it.**

**These sales are divided into two parts:**

- 1. Fixed price segment**
- 2. Auction segment**

**Buying goods at a fixed price is very easy and with the push of a button, the work is done and the purchase is done.**

**Buying in the auction section has some tips, and finally the product or ... is sold at the highest bid price.**

# ●● BraveBoy Mission

## Description Two.

And the second goal of Brave boy is to create an environment with the tools needed to help build your ideas that can be sold in the Metaverse environment with the motto "Generate ideas and build NFD and sell them there"

Do not forget that working in Metaverse space has a lot of costs, but Brave boy helps you to build your idea with a very low cost by building this platform

# ●● BRV Decentralized Exchange

**In BRV Decentralized Exchange trade or create pools for any Token on supported networks.**

Using our upcoming DEX Platform you can trade your preferred token from binance smart chain,tron,polygon, and XDaiChain Blockchain platforms by simply connecting your wallet to our DEX and making transactions occur. Decentralized Exchanges are fast,easy to use,private,and secure by design,so our DEX will be. You only pay for the Transaction Fee, and there will be no other concealed fees.

**We will be the best together**

# ●● Brave Boy Game

## Play To Earn

The Brave Boy's Third Goal:

- The third goal is to build a thrilling, engaging, and weird, blockchain game in meta-space using VR augmented reality and AR virtual reality. Produce materials, agriculture and livestock, sell and earn money ... In this game, the goal is to make the land bigger. You are engaged in agriculture and animal husbandry and you are expanding your profession so that you can turn the village into a city. Everything in this village can be bought and sold. So that you can get enough money to buy weapons, labor and military force, attack other villages and take land and spoils of war. Finally you can build your empire
- Marry the person you want. In this game and reproduction is another strange feature of this game ....  
Playing amazing game and earn money
